## Science, Social Studies & Math Books Online

The students in grades 2 -5 have attended an online class in the computer lab. The class taught the students how to access their Science, Social Studies and Math books online. If you check his/her agenda on the first page you will see a label with all of the information needed to access these resources. Just as a reminder, the student will start at the schools home page – [www.statebridgescrossing.com](http://www.statebridgescrossing.com). Then click on “online resources” listed under quick links. ## Reflections kicks off Theme: Beauty Is....

This is a contest sponsored by the national PTA. It offers students the opportunity to create works of art for fun and recognition. Participating in reflections is a great way to explore and learn about various art forms. There are six different categories: literature, musical composition, photography, visual arts, film and choreography. Entries are judged on artistic merit, creativity and interpretation of the theme. Those who participate will have a special reception, receive awards and be listed in the school newsletter. Select works will advance to state and national levels. Entry forms are on the Reflections display table located in the front lobby. Be sure to get a copy of the rules for each type of entry. Forms are also available online:
